### DETAILED ACTION

Claims 1-2, 5, 7-8, 11, and 13-22 are pending.

#### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-2, 5, 7-8, 11, and 13-22 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. It is unclear where in the cited portions of the instant specification applicants provide basis for formula 1, formula 3, and the hydrolysable organometallic compound are dissolved.

It is suggested that applicants employ the language: "solvent solution" since "solution" is set forth in a solvent.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-2, 5, 7-8, 11, and 13-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The independent claims employ improper alternative language in defining the R groups of the formulae. See

Art Unit: 1712

MPEP 2174.05(h). See as an example, the claim 1 definition of  $R_9$  and  $R_{11}$ , employing the language "selected from the group consisting of" with the last species set forth in the alternative by "or".

The dependent claims are included since they do not correct the issue with these limitations and thus incorporate them.

The preamble is unclear since the material being claimed is set forth as "A coated material for paper or fiber material" and the present invention appears to be a "coated paper or fiber" inclusively referred to as fiber. See page 1 of the specification.

It is suggested applicants employ the language "A coated paper material or fiber material". Attention is directed to page 1 of the instant specification.

### ***Response to Arguments***

5. Applicant's arguments with respect to claims 1-2, 5, 7-8, 11, and 13-22 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
